

# The kitchen hygiene of tomorrow

The first Solid Dishwashing Chemical System that is completely free of NTA, EDTA, and phosphates, with distinctive compact storage, precise dosage capabilities.

## kitchenhygiene For shiny results.

The integral COMPACT system is the perfect combination of chemicals, dosing technology and innovative electronics for commercial dishwashing machines. The unique dosing system is extremely economical. The result: sparkling clean dishes at significantly lower dishwashing and cleaning costs.

### The advantages:

- economic and cost saving
- outstanding cleaning performance
- supports the self-cleaning process of the dishwasher
- no product remains within the container
- precise dosing
- easy-to-handle container sizes
- simple storage
- use of sustainable raw materials according to the green efficiency concept
- no needless transportation of water – active protection of the environment

### Intelligent, safe systems.

An RFID chip makes the handy multiFILL cartridge intelligent. This special label in combination with the dosing station, guarantees the use of the correct product and the exact dosage for the respective product.

The system is designed to offer maximum cost-effectiveness and user-friendliness additionally, helps you save time and money thanks to the self-optimizing intelligence.

The easy-to-use configuration and analysis software HAGLEITNER communication light completes our dosing system and convinces through the controllability of all HACCP requirements.

### Quality assurance in the kitchen.

The intelligent integral COMPACT dispensers enable a detailed collection of data. Parameters like washing and rinsing temperature as well as the conductance value are checked currently. If there is any deviation from the adjustments, an acoustical or optical warning signal is released immediately.

The HAGLEITNER communication light software also offers data analyses and continuous online monitoring.

kitchenHYGIENE  
integral COMPACT detergents.

**integral CLEAN**  
Content 4 x 4 kg Art.-No. 4220100119  
Solid, highly concentrated dishwashing detergent in block form. Highly economical. Suitable for water hardness up to 15°dH. For higher water hardness we recommend the additional use of integral LC.

**integral CLEAN WS**  
Content 4 x 4 kg Art.-No. 4220100519  
Solid, highly concentrated dishwashing detergent in block form. Excellent for water hardness up to 5°dH. For intensive cleaning. For lasting prevention of streaks, while minimising the need for intensive dishwashing.

**integral CLEAN CL**  
Content 4 x 4 kg Art.-No. 4220100419  
Solid, highly concentrated dishwashing detergent in block form. Excellent for water hardness up to 10°dH. Contains special bleaching agents and is therefore, ideally suited for stubborn stains such as coffee and tea rings. Has a disinfectant effect.\*

kitchenHYGIENE  
integral COMPACT high-gloss rinse aids.

**integral BRITE N**  
Content 2,6 kg Art.-No. 4220200119  
Concentrated, neutral, high quality gloss agent for glass- and dishwashing. Economically usable for a water hardness up to 15°dH.

**integral BRITE S**  
Content 2,6 kg Art.-No. 4220200219  
Concentrated, acid, high quality gloss agent for glass- and dishwashers. Economically usable for a hardness of 15°dH.

kitchenHYGIENE  
Cleaning and care products.

**fox ANTIBAC**  
Content 6 x 1 kg Art.-No. 4210100108  
Content 10 kg Art.-No. 4210100111

Liquid, antibacterial active washing-up liquid. For manual cleaning of dishes and glasses, for cleaning and disinfection of the kitchen. Prevents the germ increase in the whole sink unit. Therefore, no unpleasant odours can arise. Contains care-extracts and is very gentle to the skin. Use the disinfection liquid safely. Always read the label and product information before application.

**RADIKALIN**  
Content 6 x 1 kg\* Art.-No. 4210100208  
Content 10 kg Art.-No. 4210100211

Highly concentrated detergent, especially developed for the high demands of industrial kitchens. Easily removes greasy soiling from surfaces, floors, cooker hoods etc. Does not foam therefore, also suitable for high-pressure equipment. Do not apply on aluminium.

**STEAMER**  
Content 10 kg Art.-No. 4210100411

Liquid detergent for cook and steam equipment for manual cleaning. Removes soiling and crusts. Odourless, gentle to the equipment and easy to use, because no steam arises.

**grillSHINE**  
Content 6 x 1 kg Art.-No. 4210100608

High quality grill detergent gel. Automatically dissolves crusty, burned-in grill, bake and roasting residues from grill plates, ovens and hot plates without strong scrubbing. Pleasant in use because the product does not cause any breath irritations. Do not apply on aluminium.

**niroSHINE**  
Content 6 x 0,8 kg Art.-No. 4210100708

High quality detergent for the maintenance of high-graded steel surfaces. Leaves a symmetrical coating against re-soiling. The surfaces preserve a glossy, well-tended optic.

kitchenHYGIENE  
ecosol maintenance products.

**ecosol IMMERSION DETERGENT**  
Content 10 kg Art.-No. 4210200211

Liquid, fast working immersion detergent. The basic cleaning of dishes and cutlery, to remove starch and protein residues. The dishes regain a practically new, shiny appearance. This detergent is not corrosive and in contrast to powder products represents no danger by inhalation of dust particles.

**ecosol STARCH EX**  
Content 15 kg Art.-No. 4210200311

Liquid, automatic starch remover. Burned-in, old starch coatings are removed with one rinse in the industrial dishwasher with ecosol STARCH EX. It is being filled into the rinse cycle without harming the machine. Dishes that are dull and soiled with starch coatings will have a new shiny appearance. To remove starch residues from cutlery, aluminium and alkaline sensitive materials, we recommend ecosol IMMERSION DETERGENT. Only suitable for alkaline-proof materials. Not suitable for aluminium, glass and cutlery.
